

## Control Options

Espar provides a variety of control options including: manual switches, thermostats, mini-controllers and modular timers (which can be programmed up to 7 days). Consult your local dealer for the one best suited to your application.

Espar has a large sales and service network, with product available at many vehicle manufacturing dealer locations across North America. Contact your local dealer for pricing and installation. A detailed listing can be found on our website at [www.espar.com](http://www.espar.com).
