

Monitor GMDSS remote

Dimensions panel (wxh): 180x65 mm

Material: aluminium

PN 70400050

Description

You want to stay in complete control of the situation and have accurate information. Guesswork is not good enough when it comes to the status of your power system.

The Monitor GMDSS (Global Maritime Distress and Safety System) is used for monitoring the accumulator battery and Mass battery charger of the reserve supply backup arrangement for the radio installations. Battery voltage and current are displayed on the digital panel.
