Ice Maker CO29WHTP

Ice Maker CO29WHTP

The manual defrost Combo Ice Maker/Refrigerator model combines maximum ice production with the performance of a high efficiency refrigeration system - all in one compact unit. Maximize your use of space by having both an 18 pound ice maker and 2.1 cubic feet of refrigeration capacity in a single unit.

This white unit, designed specifically for marine applications features a field reversible door with an anodized aluminum door handle and frame that is corrosion and UV resistant. It also features a factory installed travel pin, stainless hinges and mounting hardware.

PRODUCT HIGHLIGHTS

- Makes lots of ice - fast! An abundant supply of ice cubes in an amazingly short time.
- Manual defrost design produces daily ice rates up to 18 lbs.
- Stores up to 13 lbs.
- Refrigeration capacity of 2.1 cubic feet.
- Corrosive resistant components. Hinges & fasteners are stainless steel to resist corrosion.
- UV resistant components. Metal door frame & handle, and specially coated grille withstand adverse effects of the sun.
- Only requires 1/4" outside diameter water line connection.
- No drain required, allows for easy and inexpensive installation.
- Conserves water, only 2 1/4 gallons of water needed to make approximately 18 lbs. of ice.

PRODUCT DETAILS

Height	28-1/2"
Width	20-13/16"
Depth with Door	24"
Depth without Door	21-7/16"
Grille Height	4-1/2"
Field Reversible Door	
No Drain Required	
Approximate Daily Ice Production	18 lbs.
Ice Cube Storage Capacity	13 lbs.
Refrigeration Capacity	2.1 cu. ft.
Defrost Technology	Manual
In-Door Storage	
Number of Shelves	2.5
Available in 220/230V 50/60Hz CE Mark	
Run Amps	2.5
Maximum Start Amps	18
Approximate Shipping Weight for Black/White Models	97 lbs.
